LP GALAXY® GIOVANNI SERIES™ WOOD BONGOS

Crafted of sonically superior North American Ash
Manufactured to ensure virtually invisible glue joints, which are the result of precision stave fabrication during the assembly process
Steel backing plate helps avoid cracks from occurring in the bongo shell that can develop when players in the Salsa genre drop their bongos to the floor and begin playing their cowbell
7-14" and 8-56" natural rawhide heads, hand-picked for quality
5 1/8" diameter tuning lugs carefully formed to hug the shell, making them as comfortable for playing as possible and are complemented with plated cast aluminum bottoms
LP Comfort Curve II Rims

LP MICRO SNARE

Crisp Snare effect that clearly cuts when needed
Perfect add-on for drum set players
Quick On/Off snare release
Mounts on most bar type holders & clamps
3/8" to 1/2"
Drum key tunable

LP MICRO SNARE

Crisp Snare effect that clearly cuts
Perfect add-on for drum set players
Quick On/Off snare release
Mounts on most bar type holders & clamps 3/8" to 1/2"
Drum key tunable

LP GAJATE BRACKET

New design for easy storage
The front anchor redesigned for more stability
Stronger than previous version
Mounting bracket held in place with an eyebolt
Holds small & large percussion items
Steel construction

LP BLAST BLOCKS

Created from LP's exclusive plastic formulation, Bellastic Plastic
 Adds both musical and visual color
 Sounds are sharp and cutting with explosive punch
 Use in place of wood blocks, rim shots, or whenever a loud blast is needed

LP MIC CLAW®

Ensures solid placement of microphones on snare drums, toms, congas, and amplifiers
 Z-shaped 3/8" diameter microphone rod allows for close, as well as extended, mic positioning
 Rubber lined jaw and mount isolates the microphone from drum vibration and cross talk
 The absolute best way to mic any acoustic drum or amplifier

LP CYCLOPS TAMBOURINE

Most ergonomically designed, comfortable, and durable tambourine ever produced
 Unique patented shape has been designed especially for natural arm and wrist motions to offer greater playing ease in all situations
 Available in hand held or mountable models; the rounded edges provide extra durability for drumstick hits
 Last up to five times longer than other tambourines
 Nickel-plated steel alloy jingles produce a bright sound that projects; brass jingles deliver a distinctively warm, yet cutting sound
 Model with dimpled brass jingles produces a distinct, crisp sound
 Patented jingle pinning system keeps the jingles in place
 Mountable models use LP's forged eye-bolt assembly for secure placement on 3/8" diameter rods or hi-hat stand pull rods
 Patented

FACTORY METAL STREET FX CELTIC BELLZ

Pure Bell Tone with an Edgy Metallic Bite
 Interchangeable Jingles Customize Sound Options
 Complex Array of "Glass Breaking" Overtones
 Great Add-On for Drummers and Percussionists
 Available in 6", 8", 10" and 12" sizes
